

CRYSTAL HOMES DONATES \$65,000 TO UNDERPRIVILEGED CHILDREN

Crystal Homes—a major Ontario homebuilding corporation—and its trade partners have raised \$65,000 dollars for the Give Kids a Chance Foundation.

Providing support to children and their families in some of the poorest parts of sub-Saharan Africa, India and Guatemala, Give Kids a Chance operates under the belief that it's possible to end the cycle of poverty in developing nations through education. With this guiding principle in mind, donations to Give Kids a Chance are used to provide food, shelter, clothing and education, as well as medical and dental care, to underprivileged children internationally.

The donation made by Crystal Homes and its trade partners will be used to fund projects in Guatemala, Kenya and India. The charity is currently empowering over fifty children to strive for improved quality of life for both themselves and their families by pursuing educational goals at both the secondary and post-secondary levels.

Give Kids a Chance is notable for its commitment to ensuring that 100 per cent of donations go directly to children in need. The foundation is able to do this because it's run entirely by unpaid volunteers, so there are no administration costs. The charity is also committed to only funding non-governmental organizations that are not affiliated with any religious denomination, allowing individuals of all political and religious stripes the opportunity to help those who need it most.

Crystal Homes has built new home communities in Southern Ontario locations such as Oakville, Hamilton, East Gwillimbury and Milton. For more information on current ownership opportunities, visit www.crystalhomes.com.
